

# Resultado dos Testes Unitários

public class EventosDAOTest

The screenshot shows an IDE with two tabs: 'EventosDAO.java' and 'Resultados do Teste'. The 'EventosDAO.java' tab displays the following code:

```
31
32
33 @After
34 public void tearDown() {
35 }
36
37 /**
38  * Test of getEM method, of class EventosDAO.
39  * @throws java.sql.SQLException
40  */
41 @Test
42 public void testGetEM() throws SQLException {
43     assertEquals(true, dao.getEM().isOpen());
44 }
45
46 /**
47  * Test of listAll method, of class EventosDAO.
48  * @throws java.lang.Exception
49  */
50 @Test
51 public void testListAll() throws Exception {
52     assertNull(dao.listAll());
53 }
54
55 /**
56  * Test of tiposEventos method, of class EventosDAO.
57  * @throws java.lang.Exception
58  */
59 @Test
60 public void testTiposEventos() throws Exception {
61     assertNull(dao.tiposEventos());
62 }
63
64 /**
65  * Test of filtroEventos method, of class EventosDAO.
66  * @throws java.lang.Exception
67  */
68 @Test
69 public void testFiltroEventos() throws Exception {
70     assertNull(dao.filtroEventos());
71 }
72
73
74 }
```

The 'Resultados do Teste' tab shows the following test results:

```
Testes passados: 100,00 %
Todos os testes 4 fa(fram) aprovados(0), (4,927 s)
  ✓ br.com.infnet.controller.dao.EventosDAOTest aprovado
    ✓ testTiposEventos aprovado (4,534 s)
    ✓ testGetEM aprovado (0,068 s)
    ✓ testListAll aprovado (0,068 s)
    ✓ testFiltroEventos aprovado (0,022 s)
```

public class AssentoDAOTest

The screenshot shows an IDE with two tabs: 'AssentoDAO.java' and 'Resultados do Teste'. The 'AssentoDAO.java' tab displays the following code:

```
1 /**
2  * To change this license header, choose License Headers in Project Properties.
3  * To change this template file, choose Tools | Templates
4  * and open the template in the editor.
5  */
6 package br.com.infnet.controller.dao;
7
8 import org.junit.After;
9 import org.junit.AfterClass;
10 import org.junit.Before;
11 import org.junit.BeforeClass;
12 import org.junit.Test;
13 import static org.junit.Assert.*;
14
15 /**
16  *
17  * @author Magno
18  */
19 public class AssentoDAOTest {
20     private AssentoDAO dao;
21
22     public AssentoDAOTest() {
23     }
24
25     @BeforeClass
26     public static void setUpClass() {
27     }
28
29     @AfterClass
30     public static void tearDownClass() {
31     }
32
33     @Before
34     public void setUp() {
35         dao = new AssentoDAO();
36     }
37
38     @After
39     public void tearDown() {
40     }
41
42     /**
43      * Test of getEM method, of class AssentoDAO.
44      */
45     @Test
46     public void testGetEM() {
47         assertEquals(true, dao.getEM().isOpen());
48     }
49 }
```

The 'Resultados do Teste' tab shows the following test results:

```
Testes passados: 100,00 %
Arquivos testados 4 fa(fram) aprovados(0), (4,974 s)
  ✓ br.com.infnet.controller.dao.AssentoDAOTest aprovado
    ✓ testGetEM aprovado (4,687 s)
    ✓ testGetAssento aprovado (0,212 s)
```

## public class SalaDAOTest

The screenshot displays the Eclipse IDE with the `SalaDAOTest.java` file open. The code defines a test class for the `SalaDAO` interface, including imports for JUnit and JDBC, and methods for setting up and tearing down the test environment. The right-hand pane shows the test results for `br.com.infnet.controller.dao.SalaDAOTest`, indicating that all tests passed successfully.

```
1  /*
2  * To change this license header, choose License Headers in Project Properties.
3  * To change this template file, choose Tools | Templates
4  * and open the template in the editor.
5  */
6  package br.com.infnet.controller.dao;
7
8  import br.com.infnet.model.Sala;
9  import java.sql.SQLException;
10 import java.util.List;
11 import javax.persistence.EntityManager;
12 import org.junit.After;
13 import org.junit.AfterClass;
14 import org.junit.Before;
15 import org.junit.BeforeClass;
16 import org.junit.Test;
17 import static org.junit.Assert.*;
18
19 /**
20 *
21 * @author Magno
22 */
23 public class SalaDAOTest {
24
25     private SalaDAO dao;
26
27     public SalaDAOTest() {
28     }
29
30     @BeforeClass
31     public static void setUpClass() {
32     }
33
34     @AfterClass
35     public static void tearDownClass() {
36     }
37
38     @Before
39     public void setUp() {
40         dao = new SalaDAO();
41     }
42
43     @After
44     public void tearDown() {
45     }
46
47     /**
48      * Test of getRM method, of class SalaDAO.
49      */
50     @Test
51     public void testGetRM() {
52         // TODO: add test logic
53     }
54 }
```

Test Results Summary:

- Tests passed: 100.00 %
- Tested: 3 (br.com.infnet.controller.dao.SalaDAOTest) (3.181 s)
- testGetRM: aprovado (2.977 s)
- testGetSala: aprovado (0.105 s)
- testGetSalaAssento: aprovado (0.016 s)

## public class SessoesDAOTest

The screenshot displays the Eclipse IDE with the `SessoesDAOTest.java` file open. The code defines a test class for the `SessoesDAO` interface, including imports for JUnit and JDBC, and methods for setting up and tearing down the test environment. The right-hand pane shows the test results for `br.com.infnet.controller.dao.SessoesDAOTest`, indicating that all tests passed successfully.

```
1  /*
2  * To change this license header, choose License Headers in Project Properties.
3  * To change this template file, choose Tools | Templates
4  * and open the template in the editor.
5  */
6  package br.com.infnet.controller.dao;
7
8  import org.junit.After;
9  import org.junit.AfterClass;
10 import org.junit.Before;
11 import org.junit.BeforeClass;
12 import org.junit.Test;
13 import static org.junit.Assert.*;
14
15 /**
16 *
17 * @author Magno
18 */
19 public class SessoesDAOTest {
20
21     private SessoesDAO dao;
22
23     public SessoesDAOTest() {
24     }
25
26     @BeforeClass
27     public static void setUpClass() {
28     }
29
30     @AfterClass
31     public static void tearDownClass() {
32     }
33
34     @Before
35     public void setUp() {
36         dao = new SessoesDAO();
37     }
38
39     @After
40     public void tearDown() {
41     }
42
43     /**
44      * Test of getRM method, of class SessoesDAO.
45      */
46     @Test
47     public void testGetRM() {
48         // TODO: add test logic
49     }
50 }
```

Test Results Summary:

- Tests passed: 100.00 %
- Tested: 3 (br.com.infnet.controller.dao.SessoesDAOTest) (3.015 s)
- testListarSessoesEvento: aprovado (2.83 s)
- testGetRM: aprovado (0.247 s)
- testGetSessao: aprovado (0.048 s)
